OFFICE AT ENTRANCE

THE GARDEN NURSERIES

LOCATED on the Montgomery Pike at Narberth, the Garden Nurseries are most easily accessible by auto for anyone living on the Main Line, or in an adjacent locality.

The most enjoyable time to visit the Garden Nurseries is naturally when the flowering cherries, almonds, crab apples and plums are in full bloom. That also is a good time to purchase plants of this type, as they can be transplanted while blooming, from pots.

Our passenger station is Narberth, on the Main Line of the Pennsylvania Railroad. As it is an eight-block walk, anyone wishing to save time should take one of the taxicabs standing at the station.

The Garden Nurseries are open the year 'round to visitors. They contain the greatest variety of oriental flowering trees grown commercially in America.

*Be sure to visit us in May when the Japanese
Roseflowering Cherries are in bloom*

Japanese Roseflowering Cherries

“AMONG men, the samurai; among flowers, the sakura,” is a familiar saying, which well expresses the patriotic pride with which this gay, flashy flower is regarded in Japan. The sentiment is also conveyed in the following lines by one of the national poets:

“Shikishima no
Yamato gokoro wo
Hitotowaba
Asahi ni niwou
Yamazakura bana.”

“Should you ask me what is the true patriotic spirit, I answer: it is the scent of the mountain cherry tree in the morning air.”

Japan has had its wild cherry since the memory of man, though today it is found in abundance only in the woods of the Northern Island, Yeddo, where the Aino aborigines use its bark for many purposes. So far as the records show, however, it was not until the time of Richiu, Emperor of the Fifth Century, that it received royal notice. And it was a later Emperor, Shomu, of the eighth century, who immortalized it in a verse to his favorite consort, Komio Kogo:

“This gathered cherry branch can scarce convey
A fancy of the blossom-laden tree,
Blooming in sunlight; could I show it thee,
Thoughts of its beauty would drive sleep away.”

To satisfy the curiosity of the ladies of his court, the Emperor ordered cherry trees to be planted near the Palace at Nara, and afterwards the custom was continued at each succeeding capital. In and near the modern capital, Tokyo, are several spots renowned for their show of cherry trees, originally brought from Yoshino, and from the banks of the Sakura river in the province of Hitachi. Cherry viewing became a popular amusement in Yeddo towards the latter half of the seventeenth century. All classes of the people, from the two-sworded samurai to the small tradesmen and menials, participated in the enjoyment. The greensward beneath the cherry trees was crowded with merry picnic parties of all classes, screened off with low colored curtains. One favorite resort, called Asukayama, at Oji, is often spoken of as the new Yoshino. It is a high, grassy bluff, overlooking an extensive plain on one side, and sloping down to the village on the other. The eminence forms a park of cherry trees extending down the precipitous sides of the bank, so that the pedestrian sees the pinky white blossoms against the blue sky above him, and below the pearly gray of the blossoms in the shadows of the cliff.

A pair of Japan weeping Cherry trees at an entrance

Amanogawa

NADEN-ZAKURA. (Sieboldi)
Very striking; by many
thought the best of all. We sell
more of this variety than any
other. Double blush pink.

Size	Each	Ten
3-4 ft.	\$4.50	\$35.00
4-5 ft.	5.50	40.00
5-6 ft.	6.00	50.00
6-8 ft.	7.50	60.00

AMA - NO - GAWA - ZAKURA.

Means "River of Heaven."
(Milky Way). Blooms Double.
Most desirable variety, new;
grows like a lombardy pop-
lar, a splendid show in the
spring. Effective as formal
tree. Blush pink, fragrant,
very choice.

	Size	Each	Ten
Amanogawa (New)	2-3 ft.	\$6.00	\$40.00
"	" 3-4 ft.	7.00	50.00
"	" 4-5 ft.	8.00	60.00
"	" 5-6 ft.	9.00	75.00

KOFUGEN. (James H. Vietch). (A very vigorous growing, upright
variety. The buds are crimson; the flowers are red, fading into
old rose. A most unusual color in Flowering Cherries—very rare and
desirable).

This is a vigorous growing variety and the earliest of the dark red
Japanese Cherries, as the name indicates. In Japan, it is the most
popular of the rose-colored varieties. We like it very much on account
of its symmetrical growth.

	Size	Each	Ten
KOFUGEN, double red	2-3 ft.	\$5.00	\$40.00
" "	3-4 ft.	6.00	50.00
" "	4-5 ft.	6.50	55.00

SHIDARE - HIGAN - ZAKURA.

"Weeping Cherry." (*Cerasus*). *Prunus. Subhirtella Pendula*. "Shidare means branches bent downward something like willow. Higan means when day and night are the same length in Springtime, so it should bloom when day and night are same length." (Deep pink, single, early, weeping; one of the most prolific varieties). Earliest of all.

The Weeping Cherry is without question the most attractive weeping tree known to horticulturists. It is in habit something like the Weeping Beech. The foliage is as good as any of the well known weeping trees, Birch, Beech or Willow, and in addition to that the bright flowers cover the tree by the thousands; in large trees they number hundreds of thousands, making a gorgeous mass of pink, impossible to reproduce in colored print, but fairly well shown on the cover of this book.

Rosea

In the old temple grove, now a public park, at Uyeno, there are a number of fine trees of the single early blossoming kind, Higan-Zakura, among which are some magnificent specimens of the weeping cherry. This latter species has pendant branches, drooping like the willow, and bears single pink flowers, but rarely fruit; and in this respect it is an exception to the general rule, that the trees of single blossom bear fruit whilst those of double blossom are fruitless.

Cherry*

ROSEA. A double rose-colored form of the Flowering Cherry. Very full, globular pendulous flowers from three to five in a cluster. Cheerful, soft pink, offering a very striking contrast to the majority of the Japanese Cherries. It appears to be, when in bloom, the most popular of all the varieties, coming, as it does frequently, ahead of the other varieties, it has but little competition at that time, and this may in part, account for its popularity. Specimens of this sort should be in every collection.

SEKIZAN-ZAKURA. "Sacred Gate." Seki means gate, such as joined one territory to another at olden times of Japan. Zan means mountain. It was operated something like a toll gate is in this country, but not to collect money, but to keep out undesirables. It should bear deep pink big double flowers. A vigorous grower.

The flower in appearance is very similar to Hi-Zakura. The one distinct difference is two green carpels in the center of the flower, which it also shares with our No. 2. The buds are very dark crimson, opening up deep rose. It is a very scarce variety.

	Size	Each	Ten

Packing Weeping
cherries extra

Flowering Crab Apples

are the first brilliant color touch seen in the garden; most of them bloom before the leaves come out.

Therefore, the flowers are more conspicuous than they would otherwise be. Most of the flowers are small—some as large as apple blossoms—but all of them highly colored and more brilliant than the common apple blossoms. Many are fragrant, but it is particularly the touch of color that makes them valuable.

The trees are valuable as specimen on the lawn or in the shrubbery, and many of the varieties lend themselves particularly well to hedge planting where a high hedge is desired as a screen or windbreak. They would grow into a hedge 16 to 20 feet high or more if the planting is treated as a hedge would be treated inducing upward growth. Used in this manner they cannot be excelled by any plant material that I know of. The pink gauze-like effect produced when in bloom is very unusual and oriental in its appearance. During the past three years we have sold a tremendous lot of these trees for hedges.

Flowering Crab Apples

MALUS ATROSANGUINEA. Ming Shing. For landscape effect this variety is possibly the best. Ming Shing, translated "The Stars of Heaven" is the most striking in general effect of all the flowering crabs. The tree or bush is of irregular growth, though of a very vigorous habit. Every branch is literally covered by small flowers early in the spring; not a leaf in sight when the crimson buds appear, and they unfold a gorgeous velvety red, when the sun shines through the branches a scarlet is suggested—a very unusual effect—very oriental in its regal splendor.

Next year we hope to be able to offer this tree in such quantities and at such prices that you can afford to plant them as hedges or screens. It is positively the most beautiful hedge plant of all in my judgment.

Persica, flowering peach

MALUS IOENSIS BECH-
TELI. Bechtels Crab.

The well known double pink flowering Crab. Fragrant; no fruit. This is a Native American apple, a double form of our wild crab. The flowers are a most delightfully soft pink and very large. As the picture indicates, the buds are perfectly globular, the flowers very full and in size quite a little larger than a silver dollar. Our illustration shows a trifle less than half life size. It is the latest to bloom in our collection, and the tree is in full leaf while in bloom while the Chinese varieties display their gorgeous flowers on bare stems utterly void of foliage, and are for this reason more effective in the decorative scheme on the lawn. Many of our friends like this sort best, I think, for the reason that "Bechtels" has no competition while in bloom—all the rest have passed several weeks earlier.

MALUS SCHEIDECKERI. Wah Mee. A wonderfully prolific small tree, in spring covered with a delightful mass of double flowers of a deep rose color. The habit of the tree is very branching, and the branches are ascending, somewhat perpendicular, and covered with the charming flowers; it lends itself particularly to use as cut bloom with no disadvantage to the tree, as it seems to be benefited by pruning while in bloom. It produces an abundance of cherry-like fruit, yellow, orange, and red, that makes the delicious Chinese apple jelly, so famed for its pleasing odor and flavor.

Persica

Persian Double Flowering Peach

TO those who have had the first view of a well developed tree of this kind in full bloom, it appears that nothing more beautiful could possibly be found, and the most peculiar thing, from our point of view, is that, no matter what sort of color our client has first discovered, it seems that nothing short of that very particular shade will satisfy them. The fact is, that all of these colors are equally beautiful, but the person who has seen only one of them cannot believe it possible that anything could surpass the one first discovered, and, therefore, they will take no chance with anything different. The rose-like flowers cover practically every twig and branch of the tree, and range in color from purest snow white to soft pink, rose and red. The White Double Flowering Peach is particularly charming, as it is possibly the purest white seen in any flower.

Chinese & Japanese Plums and Flowering Almond

PRUNUS TOMENTOSA (Chinese Flowering Plum). A most prolific flowering bush of dwarf habit, thickly studded with white flowers and later with purple or yellow plums about the size of Cherries. A most desirable acquisition in the garden.

PRUNUS TRILOBA (Japanese Flowering Plum). Exceedingly prolific in bloom; flowers mostly in advance of the leaves. Pink or rose colored, very double.

Bearded Iris

AFTERGLOW (Sturtevant 1918) 8.6—Flowers of loose Pallida form.

Soft grey-lavender shading to buff with rich yellow at the haft. Well branched and of strong growth. \$2.00 each.

ALCAZAR (Vilmorin 1910) 8.9—A giant in flower and growth. S. light bluish-violet, F. deep purple with a bronze veined throat. One of the most magnificent and striking. \$1.00 each.

AMBASSADEUR (Vilmorin, 1920) 9.4—A Strong growing late variety with very large flowers. S. reddish-violet, F. deep velvety beard and style arms yellow. Of exceptional merit and superior to many varieties of a similar color. \$5.00 each.

ANNA FARR (Farr 1913) 8.4—S. white, lightly bordered pale blue; F. pure white with pale blue marking at the base. Immense flower with very large petals of great substance. \$2.50 each.

ANN PAGE (Newlands 1919) 8.4—Lovely pale lavender blue self with large flowers of splendid shape. F. long, heavily pencilled with brown at haft. Stem stout and erect. One of Sir A. Hort's best and possibly the finest of the pale purple varieties. \$15.00 each.

ASIA (Yeld 1920) 9.2—A grand Iris. S. broad and massive, pale silvery lavender deepening at the base to yellow. F. pale reddish purple lightening in color toward the margin. The haft exceptionally broad and heavily reticulated brown on a white ground with a gold margin. The base of the S. is also heavily reticulated and colored gold. Beard bright golden yellow. The whole effect of the flower is unusual and the plant stands out as one of the finest Irises in cultivation. \$25.00 each.

ASIATICUS (*Trojana*)—S. light violet-blue; F. deep purple violet. 25 cents each.

AUREA (Jacques 1833) 7.4—Beautiful form, rich chrome yellow, nothing to do with the species Aurea. 25 cents each.

BELLADONNA (Koehler 1922) The forerunner of an early Plicata.

Belladonna blooms regularly and profusely. It is distinct in that its standards are darker than the falls, caused by a more heavy mottling and striping of purple on the white ground. An excellent and showy variety that has been greatly admired. \$5.00 each.

B. Y. MORRISON (Sturtevant 1918) 8.8—A strikingly beautiful purple bicolor of American origin. S. pale lavender-violet, F. raisin-purple, velvety texture, its wide lavender border has a dark outline. Slender in growth and strong in constitution. \$2.50.

DALILA (Denis 1914) 8.0—A very choice seedling of I. Riccardi. S. pale flesh white. F. rich red-purple with a yellow beard. It is one of the most distinct and striking in color. \$1.75 each.

DALMARIUS (G. & K. 1907) 7.5—S. silvery grey, F. soft lilac purple, beard bright orange. 25 cents each.

DARIUS (Parker 1873)—S. rich yellow. F. reticulated purple on white, margined primrose, very fine. 25 cents each.

DOMINION (Bliss 1917) 9.4—A wonderful Iris in a category all its own. S. of Dauphin's blue or light bluish-violet, large, erectly held, well developed and slightly veined. F. of exceptional substance expanding at the base to a deep rich indigo-purple velvet. Beard orange, very pronounced. \$25.00 each.

ELBERON (Koehler 1922)—An entirely new shade in the deep Red, not as tall growing as Rosedale, but a good size flower of artistic form. \$5.00 each.

FAIRY 8.0—White, delicately bordered and suffused soft blue. 25 cents each.

FLAVESCENS 7.0—The large early June flowering primrose Iris, very beautiful. 25 cent each.

FLORENTINA 7.6—Creamy white, finely flushed lavender. The flowers are quite fragrant and are produced early in the season. 20 cents each.

FOSTER YELLOW (Foster 1909)—S. and F. creamy yellow. 25 cents each.

FRO—S. deep gold; F. brilliant chestnut-brown. 50 cents each.

HALFDAN (G. & K. 1908)—Creamy white; large flowers; good substance. 50 cents each.

HER MAJESTY (Perry 1903) 7.3—Rose pink and birght crimson. 35 cents each.

INGEBORG (G & K. 1908) 7.7—Pure white, large. 25 cents each.

ISOLINE (Vilmorin 1904) 6.6—S. lilac pink. F. purplish old-rose, golden at the throat and yellow beard. A grand distinct Iris. \$1.25 each.

JACQUESIANA (Lemon 1840) —Copper-crimson standards and maroon falls. Extra good.

JUNIATA (Farr 1909) 8.1—S. and F. clean blue, deeper than Dalmatica; tallest of the bearded Iris; large, fragrant flowers. 35 cents each.

KING OF IRIS—*Iris King*—(G. & K. 1907) 7.9—S. clear lemon-yellow F. rich maroon, bordered yellow; large flowers, brilliant. 50 cents each.

LENT A WILLIAMSON (Williamson 1918) 9.6—A new Iris of massive growth. S. soft lavender-violet, very broad. F. velvety royal purple very large. There is a blend of yellow at the haft and a bright golden beard. \$5.00 each.

LOHENGRIN (G. & K. 1910) 8.2—S. and F. uniform soft shade of cattleya rose; large. 35 cents each.

LORD OF JUNE (Yeld 1911) 9.1—An exceedingly handsome Iris of noble proportions. S. of lavender-blue and F. rich violet blue; very bold and vigorous habit. \$5.00 each.

LORELEY (G. & K. 1909) 7.9—S. light yellow; F. ultramarine, bordered with cream. 35 cents each.

MAGNIFICA (Vilmorin 1920) 9.1—Enormous flowers borne on stiff branching stems. S. light violet-blue. F. long, deep reddish-violet reticulated brown. Yellow beard. Sweetly scented.

MIDNIGHT—Kochi—A rich deep purple, the finest in this color; excellent cut flower. 50 cents each.

MONSIGNOR (Vilmorin 1907) 8.4—S. rich satiny violet; F. velvety purple-crimson with lighter margin; large flowers; exquisite; very late. 50 cents each.

MRS. ALAN GRAY (Foster 1909) 7.6—Delicate pale rose-mauve; free bloomer; blooms twice. 35 cents each.

MRS. H. DARWIN (Foster 1888) 6.8—White and reticuled violet. 25 cents each.

MRS. NEUBRONNER (Ware) 6.8—A beautiful deep golden self color. Very lovely. 35 cents each.

MRS. REUTHE (Ware 1899)—S. white softly veined and shaded pale lilac. F. white frilled pale blue. 75 cents each.

NAVAJO (Farr 1913) 7.4—S. light bronzy yellow, shaded lavender. F. deep maroon heavily veined white and yellow. Stigmas yellow; deep orange beard. Large, exquisite. \$1.00 each.

NEPTUNE (Yeld 1916)—Bright pale blue standards, rich dark purple-blue falls; the tall branched habit setting off nobly its large flowers and wide spreading falls. \$2.00 each.

NIBELUNGEN (G. & K. 1910) 7.3—S. fawn yellow. F. violet-purple on bronze. Very large. 25 cents each.

PALLIDA DALMATICA—8.8—The finest of all Irises. Has a tall stem of very pale blue flowers, broad glaucous foliage. 35 cents each.

PALLIDA MANDRALISCAE—A very tall, rich lavender purple Iris. Large. 25 cents each.

PLICATA—Bright violet and purple, orange beard. 25 cents each.

POCAHONTAS (Farr 1915) 7.7—S. tall and waved margined violet-blue on a white ground. F. white, slightly margined violet blue. 50 cents each.

POWHATAN (Farr 1913) 8.0—Tall, strong and early, very distinct reddish-purple, F. deep with a tinge of crimson. A fine shaped flower. 50 cents each.

PRINCESS VICTORIA LOUISE (G. & K. 1910) 7.2—S. primrose yellow. F. reddish-purple with a distinct narrow primrose edge. Very pleasing. 25 cents each.

PROF. A. SEELIGER (Koehler 1922)—A tall grower of distinct deep Bordeaux vine red color. \$5.00 each.

PUMILLA CYANEA—Dwarf. Skyblue.

QUEEN CATERINA (Sturtevant 1918) 9.0—Pale lavender-violet self, white haft with bronzed reticulations and beard of rich cadmium yellow. \$5.00 each.

QUEEN OF MAY (Salter before 1859) 7.4—Soft rose, almost pink. 25 cents each.

RED RIDINGHOOD (Koehler 1922)—the nearest approach to red in the Iris family, and for that reason it has a place in the Iris garden that no other variety can fill. S. attractive reddish lavender. F. purplish solferinored, with mottlings of brown near the base. The backs of the petals are pinkish lavender. Greatly admired wherever seen. \$3.00 each.

RHEIN NIXE (G. & K. 1910) 8.4—Very charming form with large flowers. S. white, very large. F. rich violet-purple with a narrow but distinct white edge. 35 cents each.

RHEIN TRAUBE (G. & K. 1917) \$3.00 each.

ROSEDALE (Kohler 1922)—A very strong tall grower of clear lavender, overlaid Lobelia blue, conspicuous orange beard, distinct in its satiny finish. \$5.00 each.

ROSE UNIQUE (Farr 1910) 6.9—S. and F. bright violet-rose. The nearest approach to a pink Iris. 50 cents each.

SHEKINAH (Sturtevant 1918) 8.8—Pale lemon-yellow deepening to rich yellow around its bright orange beard. It is the first clear yellow of Pallida growth. \$5.00 each.

SHERWIN WRIGHT (Kohankie 1915) 7.6—Golden yellow. 50 cents each.

SOUVENIR DE MME. GAUDICHAU (Millet 1914) 9.3—One of the most striking and remarkable of all Irises. A tall, early and very distinct variety; a deep purple bicolor of an unusual velvety appearance. \$7.00 each.

TRAUTLIEB (G. & K. 1899)—The nearest pink Iris. Shaded lighter at base. 50 cents each.

UNDINE (Koehler 1922)—A very strong grower and very conspicuous among other Pallida varieties. S. lovely shade of deep lavender, while the falls are rich velvety purple. No collection of Irises is complete without this handsome variety. \$3.00 each.

WALHALLA (G. & K. 1908) 7.3—Lavender and red. 25 cents each.

WYOMISSING (Farr 1909) 7.2—The creamy white standards are faintly flushed with soft rose. The falls are pale rose tinted at the edges, the upper and center portion being lilac veined on faintly-tinted flesh ground. 25 cents each.

The rating after the name of each variety, is that of the American Iris Society

Japanese Iris

- No. 4 YOMO-NO-UMI. A fine free-flowering early creamy-white, 6 petals.
- No. 5 KOKO-NO-IRO. Rich royal purple with white veinings, 6 petals.
- No. 6 DATE-DOGU. A rich violet-purple with metallic sheen, 3 petals.
- No. 12 SHIPPO. Light lilac densely veined with purple, 3 petals.
- No. 15 GEKKA-NO-NAMI. Very early pure white, 3 petals.
- No. 01 RINHO. A rich lively purple, 6 petalled variety.
- No. 43 SHI-UN-RYO. Grayish-white, deeply and densely veined and suffused with violet, 3 petals.
- No. 46 O-TOR-IGE. Aniline blue veined white and white halo, 6 petals.
- No. 55 SHUCH-UKWA. Crimson-purple with large white veins and centre.
- No. 105 NAGANO. Rich violet-purple, shaded with blue, 6 petals.
- No. 109 HOSOGAWA. Rich purple with white veinings.
- No. 112 KAMATA. A beautifully mottled white and violet, 6 petals.

CONDITION OF ORDER

THE PRICES in this Catalog do not cover extra choice specimens selected by customers in the Nurseries.

ALL PACKING CHARGES are included in our list prices, with the exception of specimen trees, for which packing is done at cost.

AS JAPANESE WEEPING CHERRIES are difficult to pack for shipment, packing charges are extra on all sizes.

FREE DELIVERY of orders within 10 miles of our Nurseries.

WHILE WE CARRY IN STOCK in our nurseries a complete line, we catalogue only a few specialties. We shall be pleased to quote you on any nursery stock you may want which is not mentioned herein.

TERMS—We give 2% discount for cash with order for plants. Cash with order, except to persons who satisfy us as to their responsibility, when accounts will be due in 30 days. We charge interest at 6% per annum.

CLAIMS—To receive consideration must be made within 10 days after receipt of goods.

SHIPPING INSTRUCTIONS—Shipping season opens about March 1st in the Spring, and August 1st in the Fall. Our stock is regularly inspected and certificate will be sent with each shipment. Write plainly and give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed; but when without instructions we will use our best judgement and forward by shortest and safest route.
